SW-AW 24-0011773 Det Yee.pdf

Commander Lara,

The SWAT Team was consulted for a SW service for the DB. As part of his review, Sergeant Hutton reviewed the attached documents, spoke with investigators and VCU Sergeant Casey. Sergeant Hutton's recommendation is for SMPD to NOT SERVE this warrant. Sergeant Casey is in agreement and believes this operation could be handled at the DB unit level.

I also read the documents, Sergeant Hutton's review, and had a conversation with Lt. Rios. I agree with this recommendation for SWAT to leave this warrant with the DB for service.

With that being said, I know these operations can require additional resources, specifically personnel. SWAT members are the best trained personnel and available to assist with the DB operation if needed.

Please reach out with any questions or concerns.

Thank you,

Nate

Lt. Totorica,

Based upon the review of the documents attached, speaking with Det. Yee (IO) and Sgt. Casey (VCU Supervisor) this warrant would best be served at the unit level.

Box 5 on the matrix is checked. The specific information regarding the assault weapon is very vague. From social media, both suspects were in possession of the short- barreled rifle at some point (photos and conversations from end of August to early September). It is clear they had the rifle in their presence, however where they were, if they have it now, or if it was ever at these residences listed in unclear. If this box was not checked the warrants would not come to the team for review.

Renteria has minimal criminal history with nothing being violent.

Yracheta has no criminal history and has been peacefully contacted at his residence numerous times by detectives conducting routine follow up. Yracheta is a victim in another shooting.

This warrant is related to a robbery and separate shooting investigation. Neither subjects were involved in the shooting or robbery.

Sgt. Casey and I both feel this can be handled at the unit level, and if needed additional SWAT personnel will be utilized if needed.

Respectfully

Trevor Hutton, Sgt.
SMPD SWAT TL

Trevor,

It looks like these are a little lower on the matrix but still require consult. Please take a look and email your opinion. If you need hardcopies to review, they are in my top drawer

in the WC office.

Thanks,

Nate

Nate,

Attached are scanned copies of the SW-AW and two matrixes I provided you tonight in hardcopy. SW/Ramey warrants are judged signed and ready to go.

Josh Yee is primary and Scott is the best DB supervisor contact if more details are needed. Trevor is in the loop, but does not have all the intimate details as this is a VCU case.

We would want to serve this next week sometime and at least one of them has been surveilled as a passenger in a vehicle with grandma on a pretty regular basis making T-stop rollback a viable option for at least the one.

Let me know if you have any questions.

Thanks,
Danny
